

An active lifestyle is also reflected in furniture.
A double-leaf door, which allows different combinations of surfaces and edges, facilitates both the movement of numerous guests and the movement of the largest pieces of furniture.

DOUBLE-LEAF DOORS

SEAL LINING FOR DOUBLE-LEAF DOORS

To further improve the user experience, the classic double-leaf door has been upgraded with a seal lining in the groove of the main leaf.

THE FOLLOWING ADVANTAGES
HAVE BEEN OBTAINED THROUGH
THE INSTALLATION OF THE SEAL:

- softer door closing
- tight fitting of the main leaf onto the dependent leaf
- prevents rattling of the door in the event of a draft
- there is no visible light through the groove
