DOUBLE-LEAF DOORS

SEAL LINING

FOR DOUBLE-LEAF DOORS

To improve the user experience even more, the classic double-leaf door was upgraded with a seal lining in the groove of the main leaf.

THE ADVANTAGES WE
HAVE OBTAINED BY THE
INSTALLATION OF THE SEAL:

- softer door closing
- tight fitting of the main leaf onto the dependent leaf
- prevents rattling of the door in case of a draft
- there is no visible light through the groove.
